

## HEALTH & SAFETY POLICY

It is the goal and objective of this Company as much as it is reasonable and within our power to provide and maintain safe and healthful working conditions in all of our activities.

All administrative and operating procedures are designed to safeguard the health and safety of our team members, to protect from collisions and injuries and within our facilities or equipment, and to protect the motoring public with whom we share the streets and highways.

It is the responsibility of all individuals working for the Company to comply with all Company safety procedures and applicable government regulations. It is recognized that injury and collision prevention are prime factors in creating a safe work environment and operating efficiently.

There is no phase of this Company's administration or operation that is excluded from this Health and Safety Policy.

Darshan S. Kailly  
CEO
